

PROJECT 02: Studio Photo Themes

DUE: Thursday, Oct. 5 MIDNIGHT

A thematic photo bank from our experiences in Denmark and Sweden will be useful in illustrating design ideas, inspiring our Belltown partners, and reinforcing examples and learning from our study tour.

For this project, use the Flickr album you created to tag at least 16 photos that you think could serve as planning and design examples for Belltown and other urban nature projects. To tag a photo in Flickr, just open your album, select a photo and use one or more of the words from the list below to tag it. Please select from the following themes:

- Urban Nature
- Soft Edges
- Layering (functional, cultural, temporal, spatial, hydrological, etc.)
- Water
- Climate
- Inclusivity
- Living Surfaces
- Delight
- Play
- Sensory (sound, texture, olfactory, etc.)
- Social Amenity
- Mobility

If you would like to use the image for more than one theme, just create additional tags.

We will show these during our Fika with our guests on Friday. Please have your photos tagged by MIDNIGHT on Thursday, Oct. 5.
